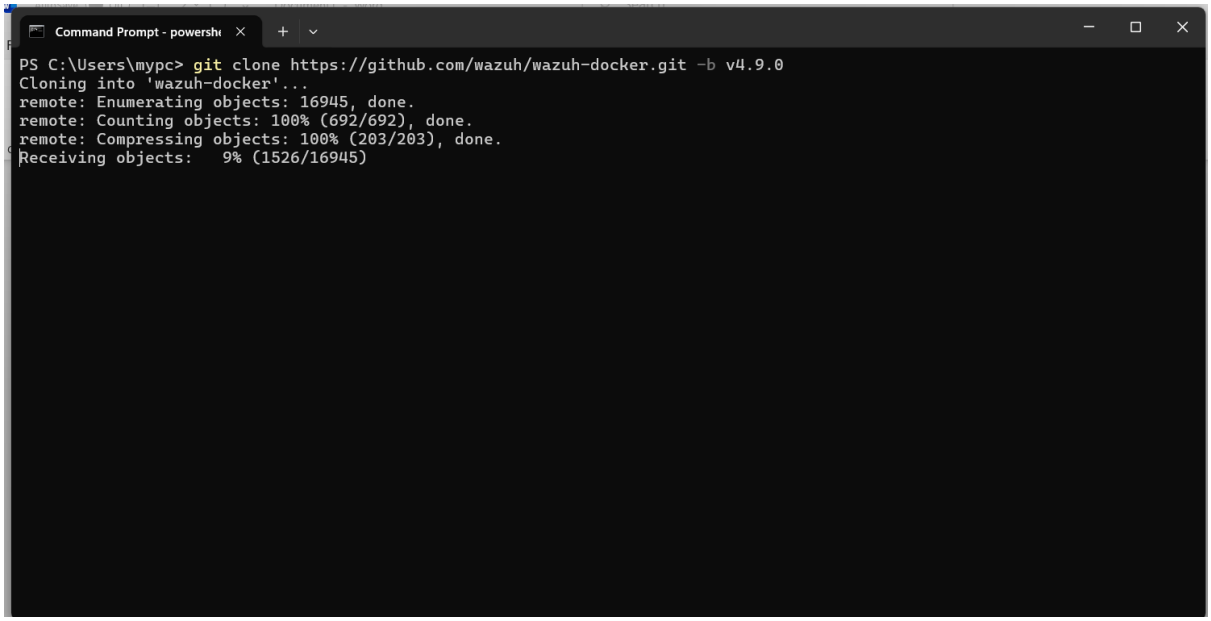
Install Wazuh Manager on Laptop (Windows/Linux)...

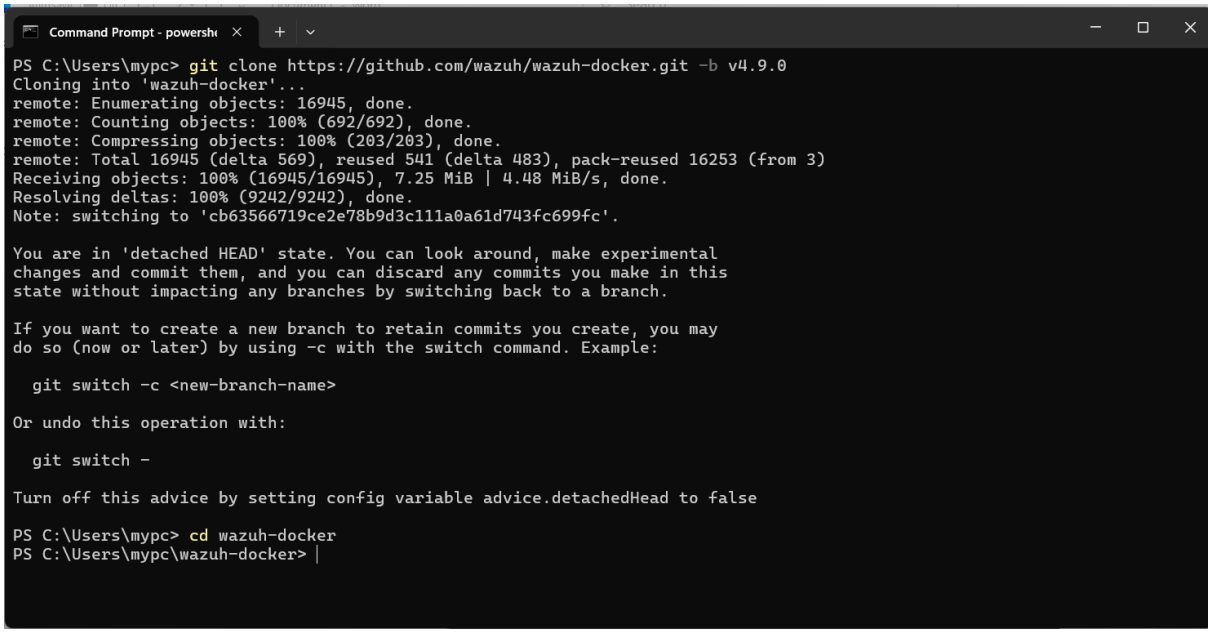
1. git clone https://github.com/wazuh/wazuh-docker.git -b v4.9.0

-make sure you have Docker Desktop

- make sure you are Administrator



2. cd C:\Users\mypc\wazuh-docker



3. cd single-node
4. ls

```
Command Prompt - powershe

If you want to create a new branch to retain commits you create, you may
do so (now or later) by using -c with the switch command. Example:

  git switch -c <new-branch-name>

Or undo this operation with:

  git switch -

Turn off this advice by setting config variable advice.detachedHead to false
